الْوَرَقَ الثَّامِنَةَ عَشَرَ

المَجَازُ

Question 1

Find verses in the Quran containing words with the root letters of the word above, but in different **صيغة** forms. State the meaning for each example.

Question 2

Ilmu Al-Bayan - **عِلْمُ الْبَيَانِ** - is a sub-science under the science of balaghah - **بَلَاغَةٌ**. It is the art of delivering a “message” or “meaning” eloquently in different ways. We learnt about one method in Leaf 17 called **التَّشْبِيهِ**.

المَجَازُ is another method. Give two examples of the use of **المَجَازُ**, with at least one from the Quran.
